## Projects:

**AntGeek** - [antgeek.herokuapp.com](https://antgeek.herokuapp.com) - [github.com/donbobvanbirt/antgeek](https://github.com/donbobvanbirt/antgeek)

*Technologies: React | Redux | Express | Mongo | AWS | Firebase*

One of my biggest solo projects. A Platform where Entomology enthusiasts can interact with one another and help each other identify insects.

**Affiliato** - [warm-river-73199.herokuapp.com](https://warm-river-73199.herokuapp.com) - [github.com/donbobvanbirt/affiliato](https://github.com/donbobvanbirt/affiliato)

*Technologies: React | Redux | Express | Mongo | Flexbox | AWS | Firebase*

Platform for individuals and organizations to share affiliate links. Fans and supporters can give support by doing their online shopping through a campaign's links.

**Entable** - [entable.herokuapp.com](https://entable.herokuapp.com) - [github.com/ziyaemanet/entable](https://github.com/ziyaemanet/entable)

*Technologies: React | Flux | Express | Mongo | Tropo SMS API*

Worked with a team to create this award winning app that helps women in rural parts of the world by providing an SMS powered table-banking platform.

## Professional Experience:

**Freelance Javascript developer**

*August 2016 - present*

Responsible for building applications using MongoDB, Express, React, and Node. I make it my top priority to always hit my clients deadlines. Please contact me for a consultation.

**Bitcoin trader and investor**

*August 2013 - September 2016*

Ran a successful crypto-currency business by taking advantage of many different trading platforms and building systems of trade and arbitrage.
